PREFACE

Dear All,

This Profile is concise report of the activities undertaken from the initial stage till now. Since inception we are trying to work for sustainable development and uplift the backward communities of our society especially tribal communities.

Our endeavour is to provide our support services to benefit the people in need, whom we serve. We tried utmost to be good service provider and to be with the people to overcome their odds, difficulties and their problems that are affecting their day to day life situation.

To nourish the hopes and aspirations of our target groups, the poor and marginalized people we want to utilize the people's wisdom and to encourage them to undertake their initiatives. We can give them the confidence among them to break their inertia to understand their potentiality and creativity. We are only to unfold the qualities that they have, but unrealized as yet.

We have received support from different well-wishers, friends, donors, expert and every sort of stake holder without whom we could not proceed for our journey. We are thankful to them, for their cooperation and assistance. The community members and the people in need are with us and we hope that they will be with us to participate more in our programmes to work together for achieving a meaningful result.

Thanks to all.

Biswajit Sarkar
Secretary

ORGANIZATIONAL BACKGROUND

HISTORY-

SAMHITA FOUNDATION is a registered Non-Governmental Organization (public charitable trust) established in 2019 with an objective to improve socio-economic status of the tribal community women, child, older person and youth. Over the time of the work of organization has grown to include a focus on excess health awareness; agriculture awareness; women empowerment; agriculture and horticulture training; eco farming guidance; environmental awareness rather towards fulfillment of sustainable development goals.

The Trust came into existence as a result of the motivation and initiative of its Settlor, Mr. Biswajit Sarkar, to enhance the socio-economic status of the underprivileged people. From its initiation, Samhita Foundation is working to provide social and empowering benefits to develop the underdeveloped areas of Paschim Barddhaman aiming at empowerment of people to have a better life.

We have implemented a wide variety of projects related to women rights for change, health care, Disability awareness, environmental awareness and Tree Plantation for restoration of earth, help the needy, widow, poor students and dry food distribution along with Mask to the poor families. While implementing different developmental projects, our focus has always been on working through people's participation. We always believe in the capabilities of the communities, and always strive to channel their hidden capacities for the betterment of society at large.

VISION-

We aim to improve education, health etc. with a focus on children and women of deprived vulnerable sections of the society and all over the India ensuring they grow up healthy-physically, mentally, confident and self-respecting. Mobilizing for participatory development strategy for improvement of socio-economic indicators through effective management of locally available resources. We are trying to employ generating unemployed workers through farming and economic development in our nation.

MISSION-

Our mission is to empower the local communities of India to create income-generating capabilities of underprivileged rural people through small scale enterprise opportunities, and to improve rural living standards of people in need through education, counseling, various cultural activities and health care for sustainable development. Beside this, we encourage livelihood development through agricultural intervention.

GOAL-

Over all Socio - Economic Development of underprivileged people specially women and children.

OBJECTIVES-

The motto of the trust is to create health awareness, help people (especially tribal) in need of food, clothing, education, medical treatment, vocational training and skill development, sustainable agriculture, women's empowerment, craft, workshops, self-help groups, awareness & campaigns of various issues, helping distressed women and child, youth development, fisheries, horticulture, employment generation.

AREA OF CONCERN-

- Women Empowerment and betterment
- Eco-farming
- Sustainable Environment Development
- Socio-economic betterment of tribal and other backwards people
- Adult Education
- Anti-Drug Campaign
- Anti-Crime Campaign

STRATEGY-

- Women self-help group
- Women training and arrangements for Self Employment
- To make woman useful for the society through adult education
- Maternal and child health care through women and child health awareness.
- To make men workable through various types of farming training.
- Men self-help group
- Motivating men to overcome drug and alcohol addiction and return to a healthy and normal life and create a conducive environment for a healthy society.
- Due to financial constraints many people get involved in various crimes, we motivate them to return life and form an anti-crime society.

FIELD OF WORK

Sustainable Agriculture Awareness Camp

Covid- 19 Relief

Mushroom cultivation

Programme Implemented

Health Awareness Camps-

Health Awareness camps organized to spread awareness about Cancer, Mental Challenges, any critical illness and methods for early detection of common and communicable diseases. We try to promote the better treatment and care, welfare and rehabilitation of people suffering from chronic disease, disability. As a responsible welfare organization, we collaborate with other health care centres to provide training facilities to medical, scientific and other technical staff. We aim to start some medical care centers and hospitals where the poor can get complicated treatment free of cost and get the basics at absolutely low cost.

COVID19 Reliefs-

Amid COVID situation we have provided Dry food for people in urgent need of food for their survival. Our Volunteer identifies needy people in different areas and provides food along with mask to them. All of this done in keeping with standards of food quality, personal hygiene, and norms advised by government and medical authorities.

Tree Plantation-

We have been continuing our tree plantation programme since our involvement in the social sector to save environment and to beautify our life. Encouraged people for certain lifestyle changes designed to help us live in a more eco-friendly way. It means becoming more environmentally aware and changing our behaviour and lifestyles to reduce the amount of pollution and waste we generate, reducing pollution & supporting ecosystem.

Agriculture Training-

Training Programme for both Women and Men were organized to promote Organic farming which is a major attempt by the organization to tackle the ecological crisis and promote rural prosperity through better management of soil for agriculture. In this initial stage the organization has provided support for farming of Paddy, Corn, Rahar daal/tuwardal by using only organic fertilizer and organic pesticide.

Mushroom Cultivation-

This is also a very important, palatable item. But the production is very much dependant on climate. The winter is the best season for cultivation of Mushroom. Another important factor worth nothing is that investment in cultivation of the item is quite minimum and even a poor family may afford to cultivate Mushroom. Therefore, skill enhancement programme on Mushroom cultivation have been organized. This training was supported with field demonstration.

Help the poor and destitute women-

Under privileged young girls and women usually under estimated and dominated by our traditional social system. We guide them to build up their self-dignity, self-confidence and improve their economical condition by self-employment through training programme. We are looking forward to extend this service to larger areas.

Disability Programme-

SAMHITA FOUNDATION has conducted disability awareness program for the community people that they think for the disabled persons and provide services to them for making a vibrant society.

PAST PROJECT

- Food distribution during lockdown
- Cultural events
- 400+ Mango Tree plantation
